

Re:SENSTER: a script to design path

Artworks of the Digital Era in Galleries and Museums
Vašulka Kitchen Brno, 22.-23.10.2019

How to estimate a distance between the subsequent versions?

#1 SENSTER _history of the return

the formula
the materials
the scale
the shape
the software
the movements

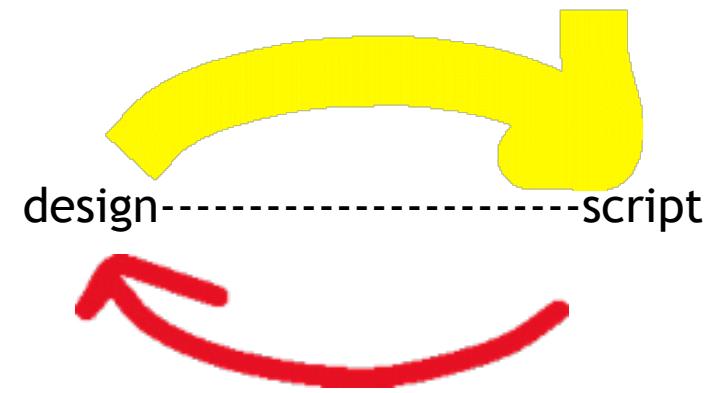

system requirements

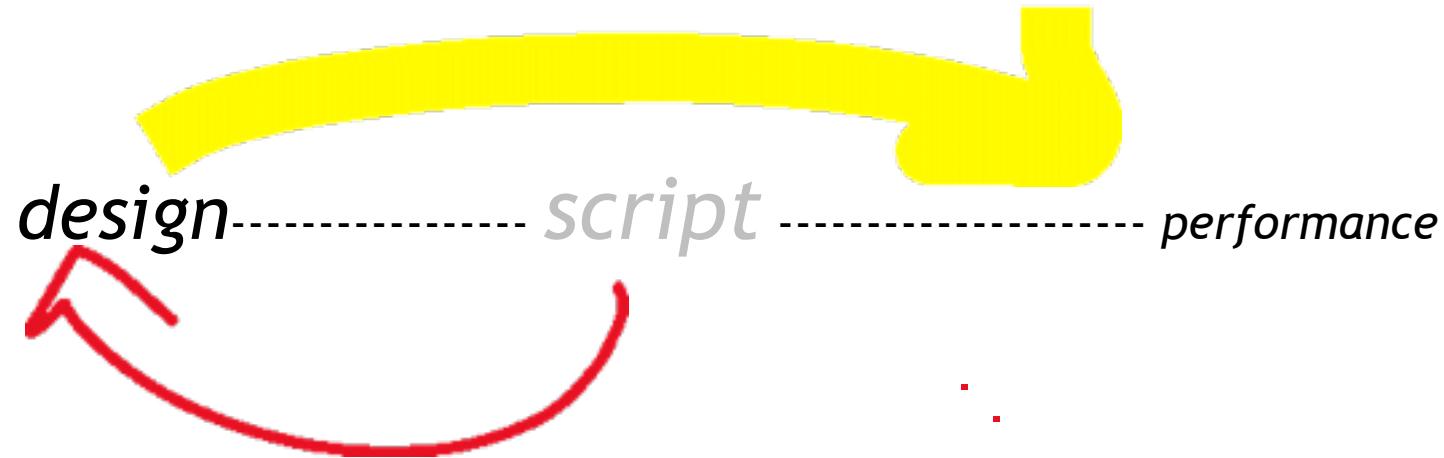

- materials
- techniques
- scale
- shape
- software
- action patterns

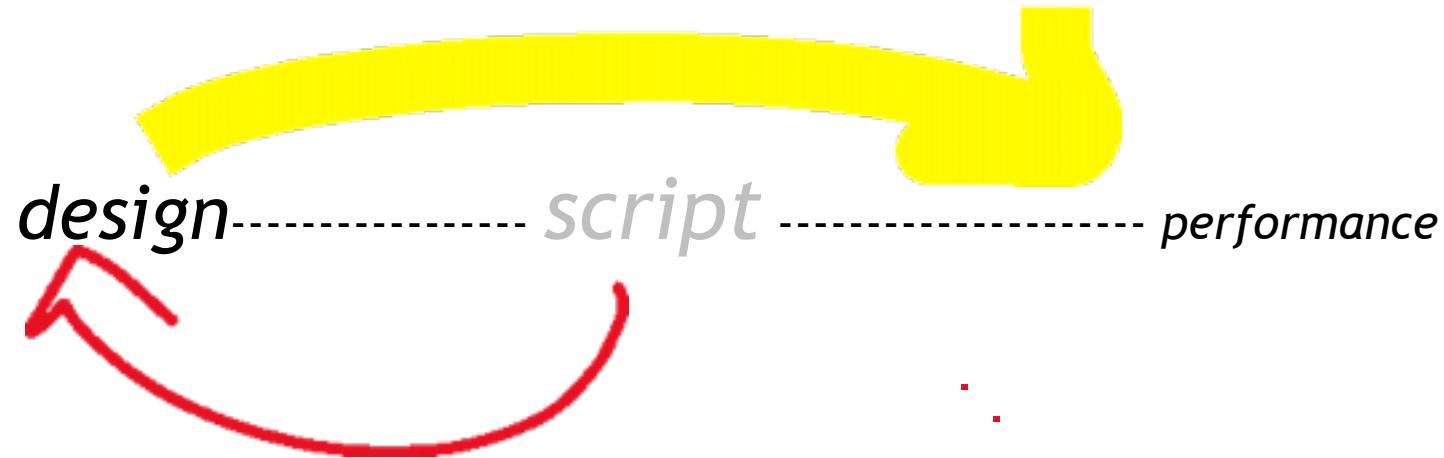

system requirements

materials	physics of the system / mass, pressure, currents, voltage etc.
techniques	processing speed
scale	memory size/type
shape	bitword length
software	sensors characteristics
action patterns	

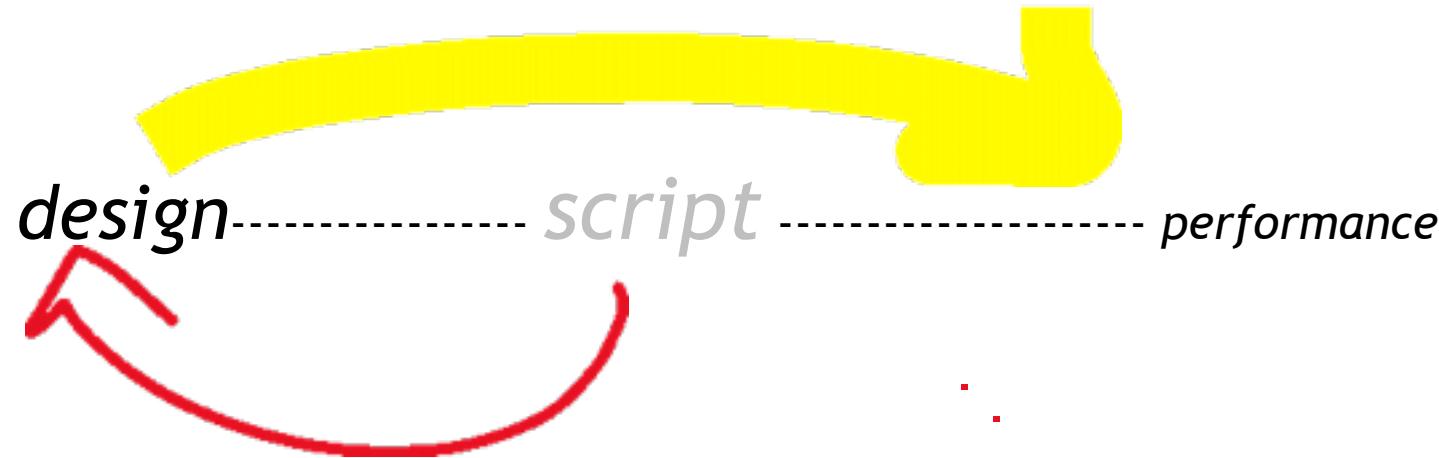

contra: lack of evidence / some pieces might be claimed as genuine design items

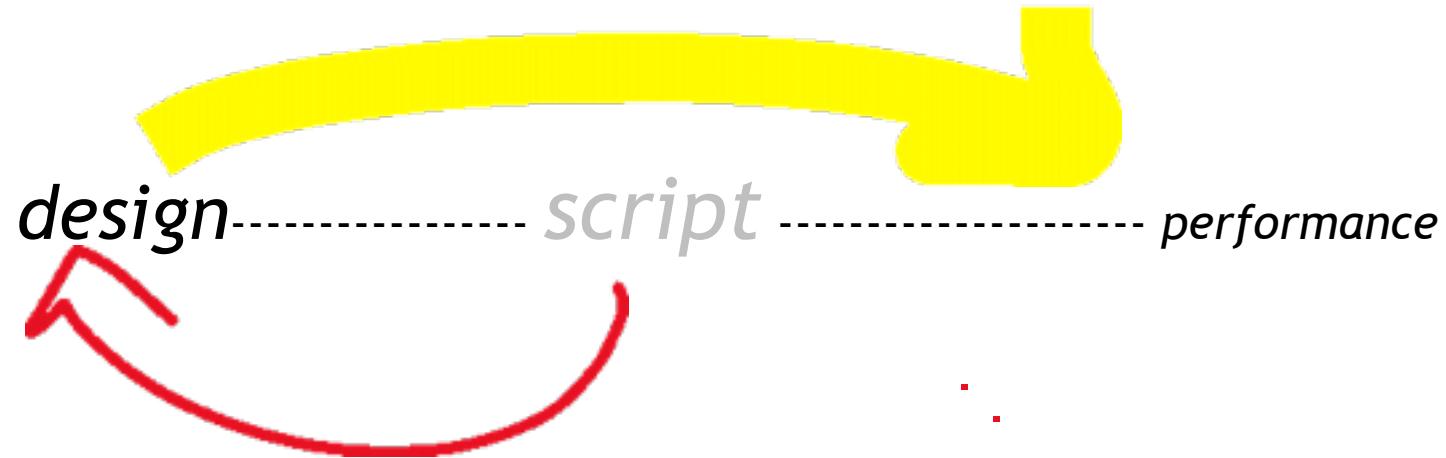

contra: lack of evidence

focus on *requirements engineering* rather than on materiality of the piece

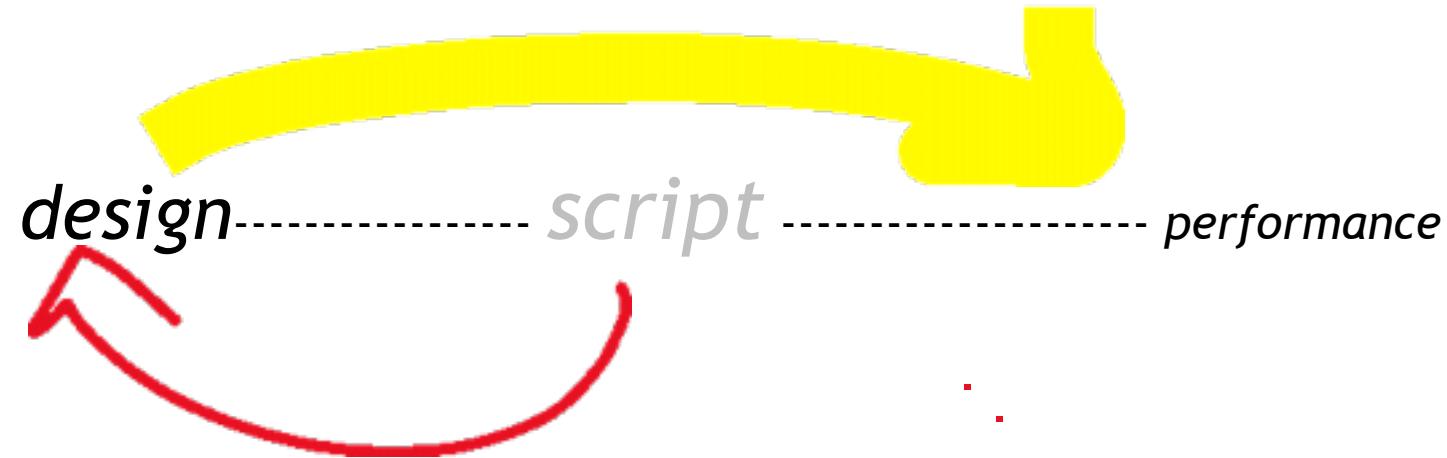

pro: notation based method*

*N. Goodman (1968), *Languages of art: An approach to a theory of symbols*, Indianapolis: Hackett Publishing.

pro: assessment of distance between the original and a restored version

pro: assessment of distance between the original and a restored version
restoration risk management
